- 1- Enabling ocean cleaning: retrieving, collecting and sorting marine litter by engaging NGOs, fisheries, local communities, authorities and waste management companies.
- 2- Engaging industries: engaging recyclers, manufacturers and brands to transform plastic marine litter into UPCYLED MARINE PLASTIC and then into everyday products.
- 3- Communicating: raising awareness of the plastic pollution issue by informing industries, lobbying authorities and educating and sensitizing society.

Once the Agreement has been formally terminated, it will still bind the parties until all pending issues have been resolved (for instance, regarding sale of inventory.)
